background-color: #ffffff;">I live in a farmworker community and I
can tell you my family and my neighbors cannot afford this
change.  Even if we can keep our cars, gas will probably be
more expensive with these rules and I worry our jobs will be
threatened if farmers have to cut backs to pay for these new
rules.  I want clean air for my family but I also need to
provide for them too and these rules may cost me the ability to do
so.   I think you should give more time so that electric
cars are not so expensive and more jobs can be saved or new ones
developed.   If not,  farmworkers are going to be
hurt by this rule.</span></p>
