13-8-2: Public Hearing to Consider Proposed Amendments to the Alternative Fuel Conversion Certification Procedures for On-Road Motor Vehicles and Engines

Staff will present to the Board proposed amendments to title 13, California Code of Regulations, Sections 2030 and 2031, the current alternative fuel certification procedures. 13-8-3: Public Hearing to Consider Proposed Amendments to the Antiperspirants and Deodorants Regulation; Consumer Products Regulation; Aerosol Coating Products Regulation; the Tables of Maximum Incremental Reactivity Values; Test Method 310, and Proposed Repeal of the Hairspray Credit Program

The primary purpose of the proposed amendments is to reduce the air quality impacts of emissions of volatile organic compounds (VOC) in consumer products and aerosol coatings. The proposed amendments also incorporate requirements for non-aerosol “multi-purpose solvents” and “paint thinners” sold in the South Coast Air Quality Management District (SCAQMD) needed to ensure that expected benefits from the SCAQMD rule are achieved. Repeal of the Hairspray Credit Program is also proposed because its usefulness has expired. Other amendments would clarify and streamline existing provisions, and incorporate additional testing procedures for multi-purpose solvents and paint thinners sold in the SCAQMD. The proposed amendments would reduce VOC emissions by 4 tons per day statewide.

The amendments include a proposal to transfer funding from demonstration projects and AQIP reserves to the AQIP truck loan program to better support consumer demand in that program.
