

State of California
AIR RESOURCES BOARD

Resolution 85-78

November 21, 1985

Agenda Item: 85-17-2

WHEREAS, Section 39601 of the Health and Safety Code authorizes the Air Resources Board ("Board") to adopt standards, rules, and regulations necessary for the proper execution of the powers and duties granted to and imposed upon the Board by law;

WHEREAS, Section 39607(d) of the Health and Safety Code requires the Board to adopt test procedures to measure compliance with its nonvehicular emission standards and those of the air pollution control and air quality management districts ("districts");

WHEREAS, in 1983 the Board adopted Title 17, California Administrative Code, Sections 94100-94116, which establish 16 test methods for determining whether a nonvehicular (stationary source) is in compliance with district emission standards;

WHEREAS, the Board's staff has now developed 14 new test methods and revisions to four of the previously adopted test methods for determining compliance with district nonvehicular emission standards;

WHEREAS, the new and revised test methods have been thoroughly evaluated by the Board's staff;

WHEREAS, the California Environmental Quality Act and Board regulations require that no project having significant adverse environmental impacts be adopted as proposed if feasible alternatives or mitigation measures are available which would substantially reduce such adverse impacts;

WHEREAS, a public hearing and other administrative proceedings have been held in accordance with the provisions of the Administrative Procedure Act (Government Code, Title 2, Division 3, Part 1, Chapter 3.5); and

WHEREAS, the Board finds that:

Adoption of the 14 new test methods and revisions to four existing test methods set forth in Attachments B, C, and D, and adoption of the regulations set forth in Attachment A incorporating the test methods and revisions, are necessary and appropriate to satisfy the requirements of Section 39607(d) of the Health and Safety Code and may simplify the identification, adoption and enforcement of nonvehicular emission standards; and

The adoption of the test methods, test method revisions, and regulations set forth in Attachments A through D will have no significant adverse environmental impacts.

NOW, THEREFORE, BE IT RESOLVED that the Board hereby approves the amendments to Sections 94101, 94103, 94105, and 94115 and new Sections 94117 through 94130, Title 17, California Administrative Code, as set forth in Attachment A hereto.

BE IT FURTHER RESOLVED that the Board hereby approves the 14 new test methods and revisions to four existing test methods for determining compliance with district nonvehicular emission standards set forth in Attachments B, C, and D.

BE IT FURTHER RESOLVED that the Board directs the Executive Officer to adopt the regulatory changes set forth in Attachments A, B, C and D after making them available to the public for a period of 15 days, and with such minor modifications as may be appropriate in light of written comments submitted during this period, provided that the Executive Officer shall present the regulations to the Board for further consideration if he determines that this is warranted in light of the written comments received.

I hereby certify that the above is a true and correct copy of Resolution 85-78, as adopted by the Air Resources Board.

Harold Holmes, Board Secretary

State of California
AIR RESOURCES BOARD

Response to Significant Environmental Issues

Item: Public Hearing to Consider Amendments to Regulations Regarding the Hydrocarbon Exhaust Emission Standard for Small Volume Class III California Motorcycles

Agenda Item No.: 85-16-1

Public Hearing Date: November 21, 1985

Response Date: January 6, 1985

Issuing Authority: Air Resources Board

Comment: No comments were received identifying any significant environmental issues pertaining to this item. The staff report identified no adverse environmental effects.

Response: N/A

Certified: *[Signature]*
