13. SOUTH SAC PARTS admits the facts described in recital paragraphs 1-9, but denies any liability arising therefrom.
14. SOUTH SAC PARTS is willing to enter into this Agreement solely for the purpose of settlement and resolution of this matter with ARB. ARB accepts this Agreement in termination of this matter. **15. SB 1402 Statement**

Senate Bill 1402 (Dutton, Chapter 413, statutes of 2010, Health and Safety Code section 39619.7) requires the ARB to provide information on the basis for the penalties it seeks. This required information, which is provided throughout this settlement agreement, is summarized here.

**The manner in which the penalty amount was determined, including a per unit or per vehicle penalty.**

Penalties must be set at levels sufficient to discourage violations. The penalties in this matter were determined in consideration of all relevant circumstances, including the eight factors specified in Health and Safety Code section 43024.

The per unit penalty in this case is a maximum of \$500.00 per unit per strict liability violation. The penalty obtained in this case is \$500.00 per unit for 3 units.

**The provision of law the penalty is being assessed under and why that provision is most appropriate for that violation.**

ARB alleges that the penalty provision being applied in this case, Health and Safety Code section 43016, is appropriate because SOUTH SAC PARTS allegedly sold, and/or offered for sale, and/or advertised the subject non-California certified aftermarket parts that were not exempted pursuant to

California Code of Regulations, title 13, section 2222.

**Is the penalty being assessed under a provision of law that prohibits the emission of pollution at a specified level, and, if so a quantification of excess emissions, if it is practicable to do so.**

The provisions cited above do not prohibit emissions above a specified level. It is not practicable to quantify these emissions, because the information necessary to do so, such as emission rates and time of use, is not available. There are no testing results available that would indicate how much emissions increased as a result of the use of the uncertified aftermarket parts. However, since the aftermarket parts were not certified for sale in California, emissions attributable to them are illegal and excess. The parties had adequate opportunity to conduct such testing, but elected not to do so in the interests of settlement and because of the time and expense involved.

16. SOUTH SAC PARTS acknowledges that ARB has complied with SB 1402 in prosecuting and settling this case. Specifically, ARB has considered all relevant facts, including those listed at Health and Safety Code section 43024, has explained the manner in which the penalty amount was calculated (including a per unit or per vehicle penalty, if appropriate), has identified the provision of law under which the penalty is being assessed, and has considered and determined that this penalty is not being assessed under a provision of law that prohibits the emission of pollutants at a specified level.
17. Penalties were determined based on the unique circumstances of this matter, considered together with the need to remove any economic benefit from noncompliance, the goal of deterring future violations and obtaining swift compliance, the consideration of past penalties in similar case negotiation, and the potential costs and risk associated with litigating these particular violations. The penalty reflects violations extending over a certain period of time, considered together with the complete circumstances of this case.
18. The penalty in this case was based in part on confidential business information provided by SOUTH SAC PARTS that is not retained by ARB in the ordinary course of business. The penalty in this case was also based on confidential settlement communications between ARB and SOUTH SAC PARTS that ARB does not retain in the ordinary course of business either. The penalty also reflects ARB's assessment of the relative strength of its case against SOUTH SAC PARTS, the desire to avoid the uncertainty, burden and expense of litigation, obtain swift compliance with the law and remove any unfair advantage that SOUTH SAC PARTS may have secured from its alleged actions.
