BE IT FURTHER RESOLVED: That the manufacturer has optionally applied for certification of the listed vehicle models in accordance to the test procedures set forth in "California Exhaust Emission Standards and Test Procedures for 2001 and Subsequent Model Passenger Cars, Light-Duty Trucks, and Medium-Duty Vehicles," as approved by the Air Resources Board on November 5, 1998. Manufacturers choosing this option must comply with all provisions under these test procedures.

BE IT FURTHER RESOLVED: That the listed vehicle models are conditionally certified in accordance to the above-referenced standards and test procedures. This certification is conditional on such standards and test procedures becoming effective by November 1, 1999. If such standards and test procedures do not become effective by November 1, 1999, the manufacturer shall, within 45 days after being notified, submit additional information including data from the second emission-data vehicle, vehicle emission control and smog index label, emission control system warranty statement, etc. to demonstrate compliance with the certification requirements in effect at the time of execution of this Executive Order. Failure to submit the required information within the specified time shall cause the vehicles sold under this Executive Order to be deemed uncertified, and the manufacturer to assume full responsibilities for these vehicles.

BE IT FURTHER RESOLVED: That any "Vehicle Equivalent Debit" in the manufacturer's medium-duty vehicle phase-in compliance plan shall be equalized as required by the standards and test procedures.
