

UPDATED INFORMATIVE DIGEST

Section Affected: Amendments to title 17, California Code of Regulations (CCR), section 60201, pursuant to section 39608 and 40925.5 of the Health and Safety Code (H&SC).

Summary: At a public hearing on November 16, 2000, the staff proposed that Butte, Glenn, and Mono Counties be redesignated from nonattainment-transitional to nonattainment for the State ozone standard in CCR, title 17, section 60201. These redesignations would reflect those changes that occur by operation of law pursuant to H&SC section 40925.5. The staff proposal was the same as that described in the Initial Statement of Reasons for Proposed Rulemaking (Staff Report) released on September 29, 2000. At the hearing, the California Air Resources Board adopted the amendments to the area designation regulations as proposed by the staff.
