

## California Cap-and-Trade Program Greenhouse Gas Allowance Price Containment Reserve Sales

### 2024 Annual Allowance Price Containment Reserve Notice Issued on December 1, 2023

#### Reserve Sale Summary

As part of the Cap-and-Trade Program, the California Air Resources Board (CARB) will offer sales of greenhouse gas (GHG) allowances from the Allowance Price Containment Reserve (Reserve) in any quarter that the Current Auction held in the preceding quarter resulted in a settlement price greater than or equal to 60% of the lowest Reserve tier price. In addition, a Quarter 3 Reserve sale will be offered each year in September, prior to the compliance obligation instrument surrender deadline on November 1. A Reserve sale is conducted only if at least one entity that intends to participate in the Reserve Sale informs CARB at least 20 days prior to the scheduled Reserve Sale and submits a bid guarantee before the deadline in the Reserve Sale Notice.

CARB will offer allowances for sale from the Reserve in two fixed-price tiers. The number of allowances offered in 2024 may be adjusted based on the results of the 2023 Quarter 4 Reserve sale.
