

Strategies and Activities for CTC and CARB

- Opportunities for CTC/CARB to support local gov'ts and transit agencies
 - How to link state and local initiatives?
 - Technical assistance
 - Programs to support local experimentation
- How to support housing goals
 - Role of CTC and CARB with infill development, especially in dense transit corridors?
 - Prioritize investments around infill? Transit access? Accessibility by mobility disadvantaged?
- How to incorporate environmental considerations into local/state pricing of services and roads, including pricing of single passenger TNCs, congestion pricing, road user charges (RUC)
- Connectivity between vehicles and infrastructure (for safety and roadway efficiency)
