

State of California  
AIR RESOURCES BOARD

Resolution 84-1

January 27, 1984

Agenda Item No.: 84-2-1

WHEREAS, the Air Resources Board (the "Board") on December 1, 1982, adopted a new Subchapter 7, in Chapter 1, Part III of Title 17, California Administrative Code, entitled "Toxic Air Contaminants," consisting of Sections 93000-93005;

WHEREAS, Sections 93000-93005 contain procedures and criteria for the identification and listing of toxic air contaminants and establish minimum requirements for the control of toxic air contaminants;

WHEREAS, the Board adopted Sections 93000-93005 pursuant to a finding that the public health, safety and welfare are endangered by the emission into the ambient air of substances which are determined to be carcinogenic or otherwise toxic to human beings; and that the statewide program created by these regulations was authorized, necessary and desirable;

WHEREAS, in September 1983, the Legislature enacted and the Governor signed AB 1807 (Tanner, Stats. 1983, ch. 1047; Health and Safety Code Section 39650 et seq., Food and Agricultural Code Section 14021 et seq.), in which the Legislature finds and declares that:

The public health, safety, and welfare may be endangered by the emission into the ambient air of substances which are determined to be carcinogenic, teratogenic, mutagenic, or otherwise toxic or injurious to humans; and

It is the public policy of the state that emissions of toxic air contaminants should be controlled to levels which prevent harm to the public health.

WHEREAS, in AB 1807, the Legislature clarified the role of the Air Resources Board with regard to the regulation of toxic air contaminants and provided specific legislative direction to the Board and to local air pollution control districts in the identification and control of toxic air contaminants;

WHEREAS, the provisions of AB 1807 override any conflicting provisions of the Board's regulations;

WHEREAS, the Board finds that, because of the adoption of AB 1807, the Board's regulations for the identification and control of toxic air contaminants are no longer necessary;

WHEREAS, the California Environmental Quality Act and Board regulations require that action not be taken as proposed if feasible mitigation measures or alternatives exist which would substantially reduce any significant adverse environmental effects of the proposed action;

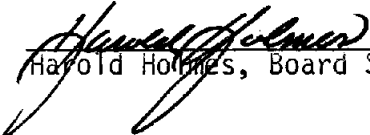

WHEREAS, the Board finds that the repeal of Sections 93000-93005 will not result in adverse environmental impacts; and

WHEREAS, a duly noticed public hearing has been held in accordance with the provisions of Chapter 3.5 (commencing with Section 11340), Part 1, Division 3, Title 2 of the Government Code.

NOW, THEREFORE, BE IT RESOLVED that the Board repeals Sections 93000-93005, Title 17, California Administrative Code.

BE IT FURTHER RESOLVED that the Executive Officer is directed to take appropriate measures to assure timely implementation of AB 1807, including coordination with affected agencies in the evaluation and identification of substances which may be toxic air contaminants and with air pollution control districts in the control of substances identified as toxic air contaminants for nonvehicular sources.

I hereby certify that the above is a true and correct copy of Resolution 84-1 as adopted by the Air Resources Board.
