

State of California
AIR RESOURCES BOARD

Resolution 89-60

June 9, 1989

Agenda Item No.: 89-11-2

WHEREAS, Sections 39600 and 39601 of the Health and Safety Code authorize the Air Resources Board (the "Board") to adopt standards, rules and regulations and to do such acts as may be necessary for the proper execution of the powers and duties granted to and imposed upon the Board by law;

WHEREAS, the Legislature enacted the California Clean Air Act of 1988 (the "Act," Stats. 1988, ch. 1568) declaring that it is necessary that the state ambient air quality standards be attained by the earliest practicable date to protect the public health, particularly the health of children, older people, and those with respiratory diseases;

WHEREAS, in order to attain these standards, the Act mandates a comprehensive program of emission reduction measures and planning requirements for the state and the local air pollution control districts ("districts") in areas where the standards are not attained;

WHEREAS, the Act directs the Board in Section 39608(a) of the Health and Safety Code, in consultation with the local air pollution control districts ("districts"), to identify and classify, on or before September 30, 1989, each air basin as attainment, nonattainment, or unclassified on a pollutant-by-pollutant basis pursuant to criteria established by the Board under Section 39607(e) of the Health and Safety Code;

WHEREAS, the Board has approved criteria for the designations pursuant to Section 39607(e) which are contained in Sections 70300-70306, Title 17, California Code of Regulations;

WHEREAS, in consultation with the districts and in consideration of comments received from public agencies, industry representatives, and interested persons, staff has prepared proposed designations for each area in the state on a pollutant-by-pollutant basis;

WHEREAS, the proposed designations of areas as attainment, nonattainment, or unclassified are based on the criteria approved by the Board;

WHEREAS, the California Environmental Quality Act and Board regulations require that no project which may have significant adverse environmental impacts be adopted as originally proposed if feasible alternatives or mitigation measures are available to reduce or eliminate such impacts; and,

WHEREAS, a public hearing and other administrative proceedings have been held in accordance with the provisions of Chapter 3.5 (commencing with

Section 11340), Part 1, Division 3, Title 2 of the Government Code and the Board has considered the testimony presented by interested persons and the staff.

WHEREAS, the Board finds that:

The proposed designations comply with the requirements of Section 39608 of the Health and Safety Code;

The proposed designations of areas as attainment, nonattainment, or unclassified for air pollutants listed in Section 70200 of Title 17 of the California Code of Regulations are consistent with the designation criteria as approved by the Board in Sections 70300 through 70306 of Title 17 of the California Code of Regulations; and

This regulatory action will not have a significant adverse impact on the environment and should ultimately result in environmental benefits because it is part of a multi-step program designed to achieve and maintain the state ambient air quality standards.

NOW, THEREFORE, BE IT RESOLVED that the Board hereby approves Sections 60200 through 60209, Title 17, California Code of Regulations, as set forth in Attachment A hereto.

BE IT FURTHER RESOLVED that the Board directs the Executive Officer to adopt Sections 60200 through 60209, Title 17, California Code of Regulations, after making them available to the public for a period of 15 days, provided that the Executive Officer shall consider such written comments as may be submitted during this period, shall make modifications as may be appropriate in light of the comments received, and shall present the regulations to the Board for further consideration if he determines that this is warranted.

I hereby certify that the above is a true and correct copy of Resolution 89-60, as adopted by the Air Resources Board.

Cary Allison, Board Secretary
