RESOURCES AGENCY OF CALIFORNIA

State of California
AIR RESOURCES BOARD

Resolution 90-25

April 12, 1990

Agenda Item: 90-3-2

WHEREAS, Section 39601 of the Health and Safety Code authorizes the Air Resources Board (the "Board") to adopt standards, rules, and regulations necessary for the proper execution of the powers and duties granted to and imposed upon the Board by law;

WHEREAS, Section 39607(d) of the Health and Safety Code requires the Board to adopt test procedures to measure compliance with its nonvehicular emission standards and those of the air pollution control and air quality management districts ("districts");

WHEREAS, the Board has previously adopted Sections 94100-94145, Title 17, California Code of Regulations, which establish 45 test methods for determining whether a nonvehicular (stationary) source is in compliance with the district emission standards;

WHEREAS, the Board's staff has now proposed one new test method, Method 435, Determination of Asbestos Content of Serpentine Aggregate, for determining the asbestos content of serpentine aggregate and determining compliance with Board and district nonvehicular emission standards.

WHEREAS, the new test method and proposed amendments have been thoroughly evaluated by the Board's staff;

WHEREAS, the California Environmental Quality Act and Board regulations require that no project having significant adverse environmental impacts be adopted as proposed if feasible alternatives or mitigation measures are available which would substantially reduce such adverse impacts;

WHEREAS, a public hearing and other administrative proceedings have been held in accordance with the provisions of the Administrative Procedure Act (Government Code, Title 2, Division 3, Part 1, Chapter 3.5); and

WHEREAS, the Board finds that:

Adoption of the new regulations set forth in Attachment A and of new Method 435 as set forth in Attachment B, with the modifications set forth in Attachment C, is necessary and appropriate to satisfy the requirements of Section 39607(d) of the Health and Safety Code;

The actions approved herein will have no significant adverse environmental impacts.

NOW, THEREFORE, BE IT RESOLVED that the Board hereby approves the adoption of Section 94147, Title 17, California Code of Regulations, as set forth in Attachment A hereto.

BE IT FURTHER RESOLVED that the Board hereby approves the adoption of new Method 435 as set forth in Attachment B, with the modifications set forth in Attachment C.

BE IT FURTHER RESOLVED that the Board directs the Executive Officer to adopt the regulatory changes set forth in Attachment A and B with the modifications set forth in Attachment C, after making them available to the public for a period of fifteen days, with such further modifications as may be appropriate in light of written comments submitted, provided that the Executive Officer shall present the regulations to the Board for further consideration if the Executive Officer determines that this is warranted in light of the supplemental written comments received.

I hereby certify that the above is a true and correct copy of Resolution 90-25, as adopted by the Air Resources Board

Judith M. Lounsbury Board Secretary
