

State of California  
AIR RESOURCES BOARD

Resolution 94-10

**WHEREAS**, Andrew Wortman, Ph.D., has served as the automotive engineering expert on the Air Resources Board (ARB) since 1983;

**WHEREAS**, during his tenure, Andrew tenaciously represented the interests of California's research, environmental, and health communities;

**WHEREAS**, Andrew worked to ensure that the most accurate, complete, and relevant science was used as the basis for California's air quality management program;

**WHEREAS**, Andrew's experience and understanding of both the scientific process and air pollution provided the Board with a broader understanding of the relationship between science and policy;

**WHEREAS**, Andrew participated on several Board committees which oversaw ARB research and control strategies, and contributed to the Board's knowledge of these subjects;

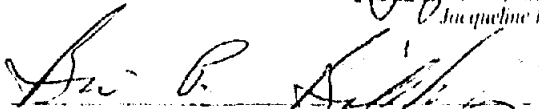

**WHEREAS**, Andrew's high-spirited personality and pragmatic style served the Board well in its efforts to separate fact from fiction in a multitude of regulatory actions;

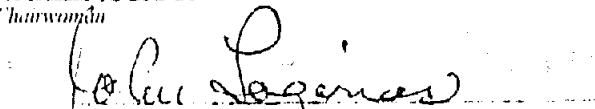

**WHEREAS**, Andrew served the valuable role of encouraging an open and useful dialogue with the research community;

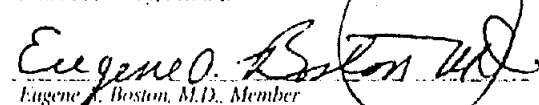

**WHEREAS**, Andrew's participation on the Board often raised scientific and engineering issues.

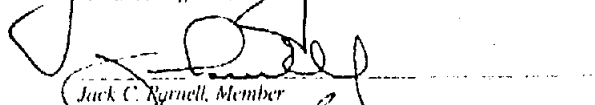

**NOW, THEREFORE, BE IT RESOLVED** that the Board wishes Andrew success in his future endeavors and expresses its appreciation for his contributions on behalf of clean air.
