The Honorable Mark Leno
Joint Legislative Budget Committee
1020 N Street, Room 553
Sacramento, California 95814
Attention: Ms. Peggy Collins

Dear Senator Leno:

Since the passage of Assembly Bill 32 (AB 32) in 2006, the Air Resources Board (ARB) has worked diligently to develop California's climate change programs and to ensure their smooth implementation. We have made excellent progress towards achieving our goal of reducing carbon emissions to 1990 levels by 2020.

It is our pleasure to provide a copy of the enclosed report, which provides a detailed update on the progress being made to achieve the goals of AB 32. ARB has undertaken ground-breaking climate change initiatives, notably Cap-and-Trade, the Low Carbon Fuel Standard, and the Advanced Clean Cars Program, and is working in close partnership with our regional partners to implement SB 375. Furthermore, as AB 32 directed, we continue to work with our partners in other states, at the federal level, and in other countries to develop beyond-border solutions to climate change.

This report was prepared pursuant to the requirements of the Supplemental Report of the 2012 Budget Act, item 3900-001-0001, which requires ARB to provide AB 32 program updates semi-annually and AB 32 fiscal information annually to the Joint Legislative Budget Committee. The report also meets the requirements of Senate Bill 1018 (Budget and Fiscal Review, Chapter 39, Statutes of 2012), to provide semi-annual updates to the Joint Legislative Budget Committee about Western Climate Initiative, Incorporated.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
