

# R-22 Equipment Retrofits & Replacements

*R-22 production is being phased out by the U.S. EPA. Beginning in 2020, there will be no new production or import of virgin R-22 permitted in the United States. HFC replacements for R-22 are potent climate-forcing agents and thus increasingly subject to regulations, including national bans.\**

## GLOBAL WARMING POTENTIAL (GWP)

## PREPARING FOR THE FUTURE

*New low-GWP technologies are advancing rapidly and are available today. In some applications, low-GWP technologies can provide higher energy efficiency.*

Visit [www.arb.ca.gov/rmp](http://www.arb.ca.gov/rmp) for more information on low-GWP options.

\* Certain HFCs are being banned for both retrofits and replacements, but can still be used for maintenance. [www2.epa.gov/snap](http://www2.epa.gov/snap)
