

Relating to Executive Order Series DE-09-009

Effective Date: October 28, 2013

Parts List for the Donaldson Low Nitrogen Dioxide (NO₂) Filter (LNF) System*

Core diameter (inches)	Pre-filter	DPF	Inlet Assembly	Outlet Assembly	EDM	Total System
	Core Assembly	Core Assembly				
9.5	P232371	P232374	P Series No. (P_____)	P Series No. (P_____)	X Series No. See Table below	X Series No. (X_____)
	P232391	P232536				
10.5	P232372	P232375				
11.3		P232376				
12.0	P232523	P232377				
13.0	P233535	P233536				
Dual 9.5	P232371	P232374	P237440 P236688			
Dual 10.5	P232372	P232375	P237444 P236898			

*Only one system is allowed per engine. For single systems, each system contains only one stainless steel core followed by one cordierite core; each system will also contain an inlet and an outlet assembly, and a backpressure monitoring and warning system a.k.a. emissions device monitor (EDM) kit. For Dual systems, each system contains two sets of one stainless steel pre-filter followed by one cordierite DPF core; each system will also contain an inlet assembly, two outlet assemblies, and an EDM kit.

Emissions Device Monitor (EDM) Kit							
Description	Single LNF					Dual LNF	
	Base	Phase 1	Phase 1 w/ Custom Calibration	Phase 2	Phase 2 w/ Custom Calibration	Phase 4	Phase 4 w/ Optional Calibration
Part Number	X009650	X009650 Rev 1	X007814	X007813	X007816	X011232	X011233
