Subject: Incentives for electric vehicles

Comment:

Dear Board,

I am a lifetime Bakersfield, CA resident and I truly love my City and State, but I am concerned about the quality of the air I breath here in the Valley.

I feel that more drivers should be opting to drive emission free cars. Our Valley is only going to grow and more cars and trucks to follow.

Whatever the board can do to reduce emissions will helpful for myself, family and friends here in Bakersfield and the Valley.

I am currently in the process of purchasing a hybred/plug-in vehicle and keeping the rebate program going for these vehicles is a motivating for me and I would think for many to purchase and drive these clean running cars.

Thank you for time.

Matt Jelletich

Subject: Need more stringent State Ambient Air Quality Standards

Comment:

We need more stringent State Ambient Air Quality Standards in Fresno, CA. 3 people I had known in my workplace and other organizations in Fresno had died of heart problems in the last month. Several days this month I had been feeling lightheaded and inattentive and having difficulty completing my work. Wearing a N95 dust mask improved my condition a little. I have a history of multiple allergies including chemical sensitivities.
