Subject: need to clean up Valley's Air

Comment:

I would like to see funding for natural Gas locations at Retail locations. I think CARB should stop focusing on School districts and the like getting funding and instead focus it onRetailers who can supply anyone who wants it. Many trucking firms tell me they would switch over to Natural gas but there are no retailers who sell it conveniently located. My kid is asthmatic so we live in Ahwahnee by Yosemite because they can not breath the air in the Central Valley. I think we should be reducing emissions of freight hauling by placing 6-8 Natural Gas fueling facilities up and down the State of California's main traffic corridors.
Thank you Bill Bunnell
