Subject: Evidence Invalidating EPA PM2.5 NAAQS and SJV PM2.5 Regulations

Comment:

Please consider my attached 73-page September 14, 2018 SJVAPCD comment regarding the SJVAPCD 2018 Plan for PM2.5 when assessing the San Joaquin Valley Supplement to the 2016 State Strategy for the State Implementation Plan. My comment contains strong evidence that invalidates the 1997 and 2012 EPA PM2.5 NAAQS, as well as proposed new PM2.5 regulations. There should be no additional PM2.5 regulations in the San Joaquin Valley based on my evidence, which I have presented to EPA.

Subject: Evidence re SJV PM2.5 Plan Showing NO PM2.5 Deaths in CA and US

Comment:

Please read my attachment "Recent PM2.5 Activities Documenting NO Relationship Between PM2.5 and Total Mortality in US." I provide weblinks to overwhelming evidence of NO relationship between PM2.5 and total mortality in California and the US. This evidence challenges the scientific and economic validity of the EPA PM2.5 NAAQS and challenges the validity of the SJVAPCD Draft 2018 PM2.5 Plan and the SJV Supplement to the 2016 State SIP.

Subject: Criticism of PM2.5 Health Effects in 2016 AQMP re 2018 SJV PM2.5 Plan

Comment:

Please read my attached January 30, 2017 criticism of the SCAQMD 2016 AQMP Appendix I Health Effects. I identified six major flaws in the staff assessment of the PM2.5 health effects in the South Coast Air Basin. These same flaws exist in the SJVAPCD Draft 2018 PM2.5 Plan and the SJV Supplement to the 2016 State SIP. These flaws exaggerate the current health effects of PM2.5 in the San Joaquin Valley and they challenge the scientific and economic validity of the PM2.5 Plan and the SJV Supplement. All PM2.5 regulations proposed in the PM2.5 Plan and the SJV Supplement must be reconsidered after fully addressing the flaws that I have identified.
