Hey Glen!

Thank you again for your interest in Advanced Clean Fleets. Per our prior email disclaimer, if you do not want your email compiled for the ACF rulemaking file to become part of the public record please let me know as soon as possible. Otherwise, we are obliged to add it to the ACF comment docket at the end of the 15-day public comment docket.

Subject: MD vs HD

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

So my question is, if a fleet 50+ primarily HD sleeper truck and trailer, which i would consider they fall in Group 3. Will this fleet be allowed to buy MD EV trucks to help comply with, 2030 deadline of 10%? could you please send any information that explains it?

Table 1: ZEV Fleet Milestones by Milestone Group and Year

Percentage of vehicles that must be zero-emission	10%	25%	50%	75%	100%
Milestone Group 1: Box trucks, vans, buses with two axles, yard tractors, light-duty package delivery vehicles	2025	2028	2031	2033	2035 and beyond
Milestone Group 2: Work trucks, day cab tractors, buses with three axles	2027	2030	2033	2036	2039 and beyond
Milestone Group 3: Sleeper cab tractors and specialty vehicles	2030	2033	2036	2039	2042 and beyond

Thanks

Glen Catalina
