Subject: Diesel Engine Manufacturers request to tighten emissions standards to extend dates of ZEV rule for Class 8 trucks

Recently, I thought CARB ok'd the Diesel Engine Manufacturer suggestion to tighten emission standards on new diesel engines and thereby extend the ZEV Class 8 requirement dates . Where do I find that on the CARB website or will this require an amendment to the ZEV rule adopted April 2023??

A handwritten signature in black ink that reads "Steven A. Brink".
