AIR RESOURCES BOARD

EXECUTIVE ORDER D-265-47

Relating to Exemptions under
Section 27156 of the Vehicle Code

FCA US LLC
Mopar Performance
Cold Air Duct, Part No. 77072381

Pursuant to the authority vested in the Air Resources Board (ARB) by Section 27156 of the Vehicle Code (VC); and

Pursuant to the authority vested in the undersigned by Sections 39515 and 39516 of the Health and Safety Code and Executive Order G-14-012;

IT IS ORDERED AND RESOLVED: That installation of the Cold Air Duct, manufactured by FCA US LLC - Mopar Performance, 1000 Chrysler Drive, Auburn Hills, Michigan 48326, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems, and therefore, the Cold Air Duct is exempt from the prohibitions in VC Section 27156 for installation on 2011 to 2016 model year 5.7L Dodge Charger and Challenger, and Chrysler 300.

The Cold Air Duct is a direct fit aluminum air intake tube that is designed to replace the stock plastic air intake tube. Installation requires the removal of the stock air intake tubing that is located between the stock air cleaner housing and the throttle body and replaced with the more cosmetically enhanced aluminum version. The stock air intake temperature sensor is reinstalled in its stock location and orientation. The Cold Air Duct has no mechanical or electrical user adjustments. No changes are made to any component of the stock engine for installation, including engine calibration.

This Executive Order is valid provided that the installation instructions for the Cold Air Duct will not recommend tuning the vehicle to specifications different from those of FCA US LLC - Mopar Performance.

Changes made to the design or operating conditions of the Cold Air Duct, as exempt by the Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

The Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

This Executive Order is granted based on a prior Executive Orders for FCA US LLC - Mopar Performance which exempted their air intake kits with similar air intake tubes on similar vehicle applications. A similar effect on vehicle emissions and OBD II effectiveness is expected with the installation of the Cold Air Duct on vehicles listed in this Executive Order.

The Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE COLD AIR DUCT.

Marketing of the Cold Air Duct using any identification other than that shown in this Executive Order or marketing of the Cold Air Duct for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board.

No claim of any kind, such as "Approved by the Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

This Executive Order shall not apply to any Cold Air Duct advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 25 day of January 2016.

Annette Hebert, Chief
Emissions Compliance, Automotive Regulations and Science Division
