

State of California
AIR RESOURCES BOARD

EXECUTIVE ORDER D-278-1
Relating to Exemptions Under Section 27156
of the Vehicle Code

GM MOTORSPORTS
5.7L H.O. Performance Package

Pursuant to the authority vested in the Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Sections 39515 and 39516 of the Health and Safety Code and Executive Order G-45-9;

IT IS ORDERED AND RESOLVED: That the installation of the 5.7L H.O. Performance Package manufactured by GM Motorsports of 30007 Van Dyke Ave. Warren, Michigan 48090-9065, has been found not to reduce the effectiveness of the applicable vehicle pollution control system and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for 1982-87 Camaros/Firebirds originally equipped with a 5.0 or 5.7L engine.

The 5.7L H.O. Performance Package includes the following main components: ZZ4 5.7L engine (part no. 24502609) which includes a new camshaft, pistons, cylinder heads, intake and exhaust manifolds, an electronic control unit, new dual catalyst exhaust system, and transmission shift kit. The Performance Package does not utilize the use of an EGR valve or the carburetor heat stove. Exhibit A list additional parts included with the kit.

This Executive Order is valid provided that installation instructions for this kit will not recommend tuning the vehicles to specifications different from those of GM Motorsports.

Changes made to the design or operating conditions of the devices, as exempt by the Air Resources Board, which adversely affect the performance of a vehicle's pollution control system shall invalidate this Executive Order.

Marketing of this device using any identification other than that shown in this Executive Order or marketing of this device for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board.

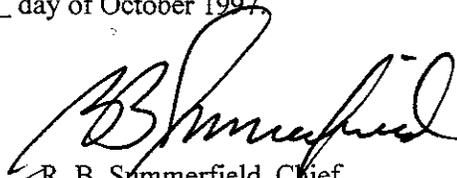

This Executive Order does not constitute any opinion as to the effect the use of the device may have on any warranty either expressed or implied by the vehicle's manufacturer.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF GM MOTORSPORTS' 5.7L H.O. PERFORMANCE PACKAGE.

No claim of any kind, such as "Approved by the Air Resources Board," may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after ten days written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it will be held within ten days of receipt of the request and the order may not be revoked until a determination after hearing that grounds for revocation exist.

Executed at El Monte, California, this 29th day of October 1997.

R. B. Summerfield, Chief
Mobile Source Operations Division

H.O. 350 ENGINE SPECIFICATIONS

Displacement: 5.7-liter (350ci)
 Bore and Stroke: 4.00" x 3.48"
 Compression Ratio: 9.8:1
 Piston Material: Cast hypereutectic aluminum
 Connecting Rod Material: 1053 forged steel
 Crankshaft: Hydraulic roller tappet (#10185071)
 Valve Lift (Intake/Exhaust): .474"/.510"
 Duration (Intake/Exhaust): 208/221 degrees @ .050" tappet lift
 Valve Lash (Intake/Exhaust): Zero/zero
 Cylinder Head Material: Cast aluminum
 Valve Diameter (Intake/Exhaust): 1.94"/1.50"

Rocker Arm Ratio: 1.5:1
 Oil Pressure (Normal): 40 psi @ 2000 rpm
 Spark Plugs: AC FR5LS, 904 or MR43LTS
Maximum Recommended Engine Speed:
 5800 rpm
Fuel Requirement: Unleaded premium
 92 octane (R+M/2)

VEHICLE IDENTIFICATION

The H.O. 350 conversion kit is designed for installation in 1982-87 Camaros originally equipped with LG4 or L69 engines. Due to differences in original equipment in these vehicles some of the components included in this conversion kit are not used with all year models and engines. The parts required to install the H.O. 350 conversion package on a specific model year and engine are noted in the chart above.

The factory-installed engine is identified by a letter code that appears in the eighth place of the Vehicle Identification Number (VIN). In the following example of a Vehicle Identification Number, the letter "H" is the engine code:

IG1FP3H0LL10001

The following are VIN engine codes for 1982-87 Camaros with LG4 and L69 engines:

Year	VIN	Engine
1983-86	"G"	L69
1982-87	"H"	LG4
