Marketing of the CS, CTS, and EvoHT programmer using any identification other than that shown in this Executive Order or marketing of the CS, CTS, and EvoHT programmer for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board.

Installation of the CS, CTS, and EvoHT programmer shall not block or prohibit the communication of all required emission related messages from the vehicle's OBD II system to a scan tool used for the Smog Check Inspection program in California.

The Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.
