This exemption is issued based on information supplied by the device manufacturer which demonstrates that the Flame-Thrower Billet Distributors meet the compliance criteria for ignition distributors as specified under "Procedures for Exemption of Add-On and Modified Parts" and therefore, will not increase emissions.

Changes made to the design or operating conditions of the Flame-Thrower Billet Distributors, as exempt by the Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

Marketing of the Flame-Thrower Billet Distributors using any identification other than that shown in this Executive Order or marketing of the Flame-Thrower Billet Distributors for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board.

No claim of any kind, such as "Approved by the Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.
