

State of California  
AIR RESOURCES BOARD

EXECUTIVE ORDER D-670-10

Relating to Exemptions under  
Section 27156 of the Vehicle Code

AEM Induction Systems  
AEM Electronically Tuned Intake

Pursuant to the authority vested in the Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Sections 39515 and 39516 of the Health and Safety Code and Executive Order G-02-003;

IT IS ORDERED AND RESOLVED: That installation of the AEM Electronically Tuned Intake, manufactured by AEM Induction Systems of 1455 Citrus Street, Riverside, California 92507, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems, and therefore, the AEM Electronically Tuned Intake is exempt from the prohibitions in Section 27156 of the Vehicle Code for installation on the following vehicles:

<u>AEM ETI</u>	<u>Vehicle</u>
41-1001	2009-2011 Nissan 3.7 liter 370Z
41-1002	2009-2011 Nissan 3.7 liter NISMO 370Z
41-1101	2010 Ford 5.4 liter F-150 truck

The AEM Electronically Tuned Intake includes open-element air filters, inlet tubes, Electronically Tuned Intake modules, windshield washer bottle, filter minder (F-150), and assorted mounting brackets and hoses, including the positive crankcase ventilation breather hose.

This Executive Order is based on exhaust emission and On-Board Diagnostic II System testing conducted with the AEM Electronically Tune Intake.

If evidence provides the Air Resources Board with reasons to suspect that the AEM Electronically Tuned Intake will affect the durability of the emission control system, AEM Induction Systems shall be required to submit durability data to show that the durability of the vehicle emission control system is not, in fact, affected and/or that the add-on or modified parts demonstrate adequate durability.

This Executive Order is valid provided that installation instructions for the AEM Electronically Tuned Intake do not recommend tuning the vehicles to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the AEM Electronically Tuned Intake, as exempt by the Air Resources Board, which adversely affect the performance of the vehicle's emission control system, shall invalidate this Executive Order.

Marketing of the AEM Electronically Tuned Intake using identification other than that shown in this Executive Order or for an application other than that listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board.

Exemption of the AEM Electronically Tuned Intake shall not be construed as exemption to sell, offer for sale, or advertise any component of the system as an individual device.

This Executive Order shall not apply to any AEM Electronically Tuned Intake advertised, offered for sale, sold with, or installed on a motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

This Executive Order does not constitute any opinion as to the effect the use of the AEM Electronically Tuned Intake may have on any warranty either expressed or implied by the vehicle manufacturer.

No claim of any kind, such as "Approved by the Air Resources Board," may be made with respect to the action taken herein in any advertising or other oral or written communication.

In addition to the foregoing, the Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of California Code of Regulations, Title 13, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF AEM INDUCTION SYSTEMS' AEM ELECTRONICALLY TUNED INTAKE.

Violation of any of the above conditions shall be grounds for revocation of this Executive Order. The Executive Order may be revoked only after a ten-day written notice of intention to revoke the Executive Order, in which period the holder of the Executive Order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request, and the Executive Order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 25<sup>th</sup> day of January 2013.

  
Annette Hebert, Chief  
Mobile Source Operations Division
