CALIFORNIA
AIR RESOURCES BOARD

EXECUTIVE ORDER D-590-33

Relating to Exemptions Under Section 27156
Of the California Vehicle Code

S&B Filters
Cold Air Intake System

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the California Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-19-095;

IT IS ORDERED AND RESOLVED: That installation of the Cold Air Intake System, manufactured and marketed by S&B Filters, 15461 Slover Avenue, Fontana, California 92337-7206, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the California Vehicle Code for 2013 to 2020 model year Dodge Ram medium-duty vehicles listed in Exhibit A of this document.

The Cold Air Intake System replaces the factory air filter and the air filter housing/airbox and includes the following components: high flow air filters (oil lubricated) or dry (no oil is required,) air filter housing/airbox, air intake tract, clamps, and all the necessary hardware to complete the installation. Also, all rubber components meet the SAE J30R8 specifications for durability and performance. The Cold Air Intake System is design to improve the intake air density by eliminating restrictions in the intake tract to provide denser and cooler air to the engine. No additional changes are required. The Cold Air Intake System does not need engine calibration, and the ECU is not reflashed and remains stock.

This Executive Order is valid, provided that the installation instructions for the Cold Air Intake System will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Cold Air Intake System, as exempted by the California Air Resources Board, that adversely affect the performance of the vehicle's emission control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Cold Air Intake System advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Cold Air Intake System using any identification other than those shown in this Executive Order or marketing of the Cold Air Intake System for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the Cold Air Intake System may have on any warranty either expressed or implied by the vehicle manufacturer.

Exemption of the Cold Air Intake System shall not be construed as an exemption to sell, offer for sale, or advertise any component of the assembly as individual devices.
This Executive Order is granted based on an engineering evaluation of provided information and previously vehicle test results in the modified configuration submitted by S&B Filters, including emissions test data.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE S&B FILTERS' COLD AIR INTAKE SYSTEM.

No claim of any kind, such as "Approved by the California Air Resources Board," may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request, and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed on this 19th day of November 2021.

Allen Lyons, Chief
Emissions Certification and Compliance Division

Exhibit A.

| Part Number | Model Year | Make | Model | Eng. Desc. |
|---|---|---|---|---|
| 75-5068, 75-5068D | 2013-2018 | Dodge Ram | 2500 | 6.7L Turbodiesel |
| 75-5132, 75-5132D | 2019-2020 | Dodge Ram | 3500/2500 | 6.7L Turbodiesel |
