CALIFORNIA
AIR RESOURCES BOARD

EXECUTIVE ORDER D-629-17

Relating to Exemptions Under Section 27156
of the California Vehicle Code

Spectre Performance
Cold Air Intake

Pursuant to the authority vested in the California Air Resources Board (CARB) by Section 27156 of the Vehicle Code (VC); and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-14-012;

IT IS ORDERED AND RESOLVED: That installation of the Cold Air Intake, produced and marketed by Spectre Performance of 1455 Citrus Ave., Riverside, California 92507, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the General Motors vehicles listed in the attached Exhibit A.

The Cold Air Intake includes the following main components: open-element reusable air filter, intake system tubing, assorted brackets, and hardware. For vehicles equipped with an original equipment manufacturer (OEM) hydrocarbon trap, the stock air box and hydrocarbon trap are retained. For vehicles where the Vehicle Emissions Control Information (VECI) label is attached to the stock air box, a new VECI label must be installed on the vehicle. The crankcase ventilation hoses may be replaced with an SAE J30R7 or OEM equivalent.

This Executive Order is valid provided that installation instructions for the Cold Air Intake will not recommend tuning the vehicle to specifications different from those of the vehicle manufacturer.

Changes made to the design or operating conditions of the Cold Air Intake, as exempt by CARB, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

This Executive Order shall not apply to any Cold Air Intake advertised, offered for sale, sold with, or installed on a new motor vehicle prior to or concurrent with transfer to an ultimate purchaser.

Marketing of the Cold Air Intake using any identification other than that shown in this Executive Order or marketing of the Cold Air Intake for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from CARB.

This Executive Order does not constitute any opinion as to the effect the use of the Cold Air Intake may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on submitted Federal Test Procedure (FTP), Supplemental FTP, and On-Board Diagnostics II test results using a modified 2016 Chevrolet Suburban (GGMXT05.3382, LEV 3 ULEV125), and an engineering evaluation of all vehicles listed in the attached Exhibit A.

CARB reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq. Further, if test results or other evidence provides CARB with reason to suspect that the Cold Air Intake will affect the durability of emission control systems, Spectre Performance shall be required to submit durability data to show that the durability of vehicle emission control systems are not, in fact, affected and/or that the add-on or modified part demonstrates adequate durability.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE SPECTRE PERFORMANCE COLD AIR INTAKE.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 12th day of April 2019.

Annette Hebert, Chief
Emissions Compliance, Automotive Regulations and Science Division
