

State of California
AIR RESOURCES BOARD

EXECUTIVE ORDER A-199-1
Relating to Certification of New Motor Vehicles

COMPACT EQUIPMENT COMPANY

Pursuant to the authority vested in the Air Resources Board by Sections 43100, 43102, and 43835 of the Health and Safety Code; and

Pursuant to the authority vested in the undersigned by Sections 39515 and 39516 of the Health and Safety Code and Executive Order G-45-3 and G-45-4;

IT IS ORDERED AND RESOLVED: That 1979 model year Compact Equipment Company medium-duty vehicles as listed on the attachment are certified using the engine families listed below:

<u>Primary Vehicle Manufacturer</u>	<u>Engine Family</u>	<u>Displacement Cubic Inches</u>	<u>Exhaust Emission Control Systems (Special Features)</u>
Ford	7.5"A"(1X150)	460	Air Injection Exhaust Gas Recirculation Oxidation Catalyst
General Motors	912K4	350	

BE IT FURTHER RESOLVED: That this certification has been issued upon the condition that no modifications have been made to the primary vehicle manufacturer's exhaust and evaporative emission control systems, fuel tank fill pipe and fill pipe opening, and that the window decal required by California Assembly-Line Test Procedures, the unleaded fuel label (if any) and the underhood labels furnished by the primary manufacturer are properly installed.

The Bureau of Automotive Repair will be notified by copy of this order.

Executed at El Monte, California this 29 day of May, 1979.

G. C. Hass, Chief
Vehicle Emissions Control Division
