

Pursuant to the authority vested in the Air Resources Board by Health and Safety Code (HSC), Div. 26, Part 5, Chap. 2; and pursuant to the authority vested in the undersigned by HSC Sections 39515-39516 and Executive Order G-02-003;

IS ORDERED AND RESOLVED: That the following exhaust and evaporative emission control systems produced by the manufacturer are certified as described below. Production vehicles shall be in all material respects the same as those for which certification is granted.

Table with columns: MODEL YEAR, TEST GROUP, VEHICLE TYPE, EXHAUST EMISSION STANDARD CATEGORY, EXHAUST / EVAPORATIVE USEFUL LIFE, FUEL TYPE. Includes sub-tables for SPECIAL FEATURES & EMISSION CONTROL SYSTEMS (ECS) and ABBREVIATIONS.

The exhaust and evaporative emission standards (STD) and certification emission levels (CERT) for the listed vehicles are as follows (compliance with the 50 °F testing requirement (for TLEV, LEV, ULEV, SULEV) may have been met based on the manufacturer's submitted compliance plan in lieu of testing).

Large table with multiple columns: NMOG FLEET AVERAGE, CERT, STD, NMOG @ RAF, NMHC, CO, NOx, HCHO, PM, NMHC+NOx, CO, NMHC+NOx, CO. Includes sub-tables for EVAPORATIVE FAMILY 1-4.

BE IT FURTHER RESOLVED: That for the listed vehicle models, the manufacturer has attested to compliance with Title 13, California Code of Regulations, (13 CCR) Sections 1965 [emission control labels], 2035 et seq. [emission control warranty], 2235 [fuel tank fill pipes and openings] (gasoline and alcohol fueled vehicles only), and "High-Altitude Requirements" and "Inspection and Maintenance Emission Standards" (California Exhaust Emission Standards and Test Procedures for 2001 and Subsequent Model PC, LDT and MDV).

BE IT FURTHER RESOLVED: That the listed vehicle models are conditionally certified in accordance with 13 CCR Section 1968.1(m)(6.2) (malfunction and diagnostic system) because the on-board diagnostic II system of the listed vehicle models has been determined to have seven deficiencies. The listed vehicle models are approved subject to the manufacturer paying a fine of one hundred seventy-five dollars (\$175) per vehicle for the third through the seventh deficiencies in the listed test group that is produced and delivered for sale in California.

On a quarterly basis, the manufacturer shall submit to the Air Resources Board reports of the number of vehicles produced and delivered for sale in California and pay the full fine owed for that quarter pursuant to this conditional certification. Payment shall be made payable to the State Treasurer for deposit in the Air Pollution Control Fund no later than thirty (30) days after the end of each calendar quarter during the 2003 model-year production period.

Vehicles certified under this Executive Order shall conform to all applicable California emission regulations. The Bureau of Automotive Repair will be notified by copy of this Executive Order.

Executed at El Monte, California on this 6th day of March 2003.

Allen Lyons, Chief
Mobile Source Operations Division
