

**CALIFORNIA'S DRAYAGE TRUCK REGULATION  
CALIFORNIA CODE OF REGULATIONS, TITLE 13, SECTION 2027  
SUMMARIZED VERSION FOR TRUCK OWNERS**

### Background

The regulation requires each motor carrier to provide a copy of the regulation or an Air Resources Board (ARB) summarized version to each drayage truck owner. The full regulation can be viewed at: <http://www.arb.ca.gov/drayagetruck>. For additional information on the regulation and its requirements, please contact ARB staff at 1.888.247.4821 or by email at [drayage@arb.ca.gov](mailto:drayage@arb.ca.gov).

### Affected Trucks

The regulation applies to all drayage trucks throughout California that transport cargo going to or coming from California's ports and intermodal rail yards. It applies to trucks regardless of the state or country they originated from. Drayage trucks are on-road diesel-fueled heavy-duty class 7 or class 8 vehicles (GVWR greater than 26,000 lbs).

### Summarized Requirements for Truck Owners

1. Register the truck in the Drayage Truck Registry.
2. Ensure the truck meets emission standards by the required dates (see below).
3. Ensure the truck driver provides the following information to enforcement personnel when requested.
  - Motor carrier business name and address
  - Motor carrier contact name and phone number
  - Bill of lading or tracking number
  - Documentation identifying the destination and origin of the cargo
4. Ensure all emission control technologies on the truck are installed correctly and working properly.

### Drayage Truck Registry (DTR)

DTR registration can be completed online or by mail.

To register online:

- Follow the "Register Your Truck" link on our website:  
[www.arb.ca.gov/drayagetruck](http://www.arb.ca.gov/drayagetruck)

To register by mail:

- Download an application from our website or contact ARB.
- Complete and mail or fax the application.

### Compliance labels

Labels are NOT mandatory. We are providing **FREE** compliance labels for trucks to aid in the identification of compliant trucks by ports and rail yards. Compliance labels can be requested by checking a box on the DTR application.

**CALIFORNIA'S DRAYAGE TRUCK REGULATION  
 CALIFORNIA CODE OF REGULATIONS, TITLE 13, SECTION 2027  
 SUMMARIZED VERSION FOR TRUCK OWNERS**

Class 8 (GVWR > 33,000 lbs.) Emission Requirements by Engine Model Year

<b>Truck Engine Model Year</b>	<b>Emission Requirement Schedule</b>
1993 and older	Prohibited
1994 - 2004	Reduce PM emissions by 85% <sup>a</sup> and After December 31, 2013, meet 2007 engine emission standards
2005 and 2006	After December 31, 2012, reduce PM emissions by 85% <sup>a</sup> and After December 31, 2013, meet 2007 engine emission standards
2007 - 2009	After December 31, 2022, meet 2010 engine emission standards
2010 and Newer	Fully Compliant

Class 7 (GVWR 26,001 to 33,000 lbs.) Emission Requirements by Engine Model Year

<b>Truck Engine Model Year</b>	<b>Emission Requirement Schedule</b>
2006 and older while operating in South Coast Air Basin	Reduce PM emissions by 85% <sup>a</sup>
2006 and older	After December 31, 2013, meet 2007 engine emission standards
2007 - 2009	After December 31, 2022, meet 2010 engine emission standards
2010 and Newer	Fully Compliant

<sup>a</sup> Compliance methods may include the installation of an ARB verified level 3 Diesel Particulate Filter or operating a truck with an engine that meets or exceeds 2007 emission standards.
