DRAYAGE
TRUCK PROGRAM

Important Reminder for Drayage (Port) Truck Owners

Drayage trucks* with 1994-2006 model year engines equipped with diesel particulate filters need to be upgraded by 12/31/2013.

Available Options

Replace the truck or engine with a:

- 2007-09 model year engine for compliance until 12/31/2022. Starting 1/1/2023, the truck or engine must be upgraded with a 2010 model year or newer engine or,
- 2010 model year or newer engine; truck will be fully compliant.

*Trucks with a manufacturer's gross vehicle weight rating greater than 26,000 pounds that haul port or rail yard cargo.
