

State of California  
AIR RESOURCES BOARD

**Executive Order 99-073**

WHEREAS, on December 10, 1998, the Air Resources Board (the "Board" or ARB) conducted a hearing to consider regulatory amendments to the California Consumer Products Regulation;

WHEREAS, following the public hearing on December 10, 1998, the Board adopted Resolution 98-65, in which the Board approved amendment of Title 13, California Code of Regulations, sections 1900, 1958, 1965 and the incorporated "Emission Control and Smog Index Label Specifications," with the modifications set forth in Attachment A thereto;

WHEREAS, Resolution 98-65 directed the Executive Officer to adopt the amendments with modifications as set forth in Attachment A and such other conforming modifications as may be appropriate, after making the modified regulatory language available to the public for a period of 15 days, provided that the Executive Officer shall consider such written comments as may be submitted during this period, shall make modifications as appropriate in light of the comments received, and shall present the regulations to the Board for further consideration if he determines that this is warranted after review of the comments;

WHEREAS, the approved modifications to the originally proposed text were made available for a public comment period of 15 days ("first 15-day comment period"), with the modifications to the originally proposed text clearly indicated, in accordance with the provisions of title 1, CCR, section 44;

WHEREAS, the two written comments received during this 15-day comment period have been considered by the Executive Officer and do not require modification nor reconsideration by the Board of the approved regulations;

WHEREAS, additional modifications to the originally proposed text were made available for a public comment period of 15 days ("second 15-day comment period"), with the additional modifications to the originally proposed text clearly indicated, in accordance with the provisions of title 1, CCR, section 44;

WHEREAS, no written comments were received during this second 15-day comment period;

WHEREAS, the Executive Officer finds that:

The regulatory amendments significantly reduce human health, safety, or environmental risks.

The cost-effectiveness of the regulatory amendments was considered, and the amendments as adopted are cost-effective.

No alternative considered by the ARB would be more effective in carrying out the purpose for which the regulatory amendments are proposed or would be as effective and less burdensome to affected private persons than the adopted amendments.

The benefits to human health, public safety, public welfare, or the environment justify the costs of the regulatory amendments.

NOW, THEREFORE, IT IS ORDERED that the recitals and findings contained in Resolution 98-65 are incorporated by reference herein.

IT IS FURTHER ORDERED, in accordance with Resolution 98-65 and Health and Safety Code sections 39515 and 39516, that the amendments to Title 13, California Code of Regulations, sections 1900, 1958, and 1965, and the incorporated "Emission Control and Smog Index Label Specifications," are hereby adopted, as set forth in Attachment 1 hereto.

Executed this \_\_\_\_\_ day of \_\_\_\_\_, 1999, at Sacramento, California.
