Final Regulation Order

Section 100 Changes to Title 13

Title 13, California Code of Regulations, Chapter 1 Motor Vehicle Pollution Control Devices, Article 3.4,

Section 2015 High Priority and Federal Fleets Applicability, Definitions, and General Requirements

Section 2015.3 High Priority and Federal Fleets Exemptions and Extensions

[Note: California Air Resources Board (CARB) amends Chapter 1, Article 3.4, Sections 2015 and 2015.3 of title 13, California Code of Regulations. This version of the Final Regulation Order complies with Government Code section 11346.2 subdivision (a)(3). The amendments are shown in underline to indicate additions from the existing regulatory text. For ease of readability, CARB has also provided a version of the amendments that can toggle between amendments in strikeout/underline and a "clean" version with amendments incorporated into the regulatory text, which can be found in the alternate Word version of this document.]

§ Section 2015. High Priority and Federal Fleets Applicability, Definitions, and General Requirements.

(b) Definitions.

"Public agency utility" means a local publicly owned electric utility, as defined in Section 224.3 of the Public Utilities Code, a community water system, as defined in Section 116275 of the Health and Safety Code, a water district, as defined in Section 20200 of the Water Code, and a wastewater treatment provider, as defined in Section 116773.2 of the Health and Safety Code.

§ Section 2015.3. High Priority and Federal Fleets Exemptions and Extensions.

(b) Daily Usage Exemption.

- (4) Submit a daily usage report for a period of at least 30 consecutive workdays from within the last 12 months using telemetry data or other data collection system that tracks daily mileage and energy use, and hours of vehicle operation if applicable, for all ICE vehicles of the same weight class and configuration of the vehicle to be replaced. Fleet owners that have a mutual aid agreement to send vehicles to assist other entities during a declared emergency event may alternatively submit this report from within the last 60 months. The report must include the daily miles traveled and energy used to drive for each ICE vehicle of the same weight class and configuration of the vehicle to be replaced. Identify the lowest mileage or energy use reading for each day and, except for public agency utilities, exclude the three highest readings. For the exemption to be granted, the highest remaining mileage or energy use number must be greater than either the range calculated in 2015.3(b)(3) or the energy use data submitted per section 2015.3(b)(3)(A).
